**Quote:**

- 1. Why is SOA important to me and my organization?**
- 2. Is there a recommended process that I would follow to plan my SOA Architecture?**
- 3. What is the ideal SOA?**
- 4. What are the main tenets of a SOA architecture?**
- 5. What are some of the design principles of SOA?**
- 6. How has SOA evolved? Can I already have the foundations for SOA in my enterprise?**
- 7. What is a service in the context of SOA?**  
**Creating all these services seems a recipe for disaster. How am I going to govern all these news services in my enterprise?**
- 8.**
- 9. Where can I find examples of where SOA has been successfully implemented?**
- 10. What are some of the most common patterns used to implement SOA?**

**Scenarios:**

# Content Architecture

**Content List:** This section describes how each of the scenarios identified in the previous section will be met, through providing appropriate and well organized content. Each main topic will have its introductory page.

- 1. Why is SOA important to me and my organization?**
- 2. Is there a recommended process that I would follow to plan my SOA Architecture?**
- 39. Where can I find examples of where SOA has been successfully implemented?**
- 10. What are some of the most common patterns used to implement SOA?**
